**Lisa M. Guirguis, M.D.**, fellowship trained surgical oncologist, recently joined Sutter Medical Group in Sacramento. Dr. Guirguis is a senior staff member at SMCS where she has been a private practice breast and oncologic surgeon since 2005.

Dr. Guirguis received her medical degree from the University of Vermont. She completed her General Surgery training at Vanderbilt University Medical Center. During her residency Dr. Guirguis completed a clinical and research fellowship in cancer immunotherapy and surgery at the National Institutes of Health, National Cancer Institute Surgery Branch in Bethesda, Maryland. She then completed an accredited Surgical Oncology Fellowship at the City of Hope National Medical Center. She received certification by the American Board of Surgery in 2004.

Dr. Guirguis is a fellow of the Society of Surgical Oncology, and is an active member of the American College of Surgeons Oncology Group. She is the institutional principle investigator for the NSABP Prevention Trials and conducts active clinical research in collaboration with Sutter Institute for Medical Research.

She has a clinical and research interest in the treatment and management of breast disease including breast cancer prevention, hereditary breast cancer syndromes, and the interdisciplinary care and management of breast malignancies.

The physicians and staff of Sutter Medical Group provide personalized, high quality primary and specialty care in offices conveniently located throughout Sacramento and Placer counties. Sutter Medical Group is affiliated with Sutter Health, a community-based, not for profit network of health services, including primary and specialty physicians, outpatient and mental health services and 26 acute care hospitals, including Sutter Medical Center, Sacramento.

Dr. Guirguis welcomes physician calls and can arrange to see consultation patients in a timely fashion. For more information or to schedule an appointment, please call (916) 453-5951.
